

TX 5063

HERE'S MY STORY:

I am a final year student from Universiti Teknologi Malaysia (UTM), currently seeking an internship in the field of Software Engineering for 20 weeks starting on 4th October 2021 - 18th February 2022. I am passionate, persistent and ambitious person who also have a versatile skill set with experience in software architecture design, web, mobile and system development. Comfortable working in a team who is also willing to take charge and curious in leaning something new. Check out my portfolio by clicking on the GitHub icon below.

TECHNICAL SKILLS

- Software Artifacts Documentation
- Data Structure and Algorithms
